CHECKING THE BOOKS

MR. R. JENTZ, President
MR. A. GRECOL, Clerk

It is greatly satisfying to know you, nearly seventy striving, ambitious young people, who complete your high school education this year. This graduating class now facing a war torn world with its many complex problems, represents our hope for a better tomorrow.

And now as you arrive at this longed for destination, glowing with the satisfaction of a job well done, you need but to look about you to see other and larger worlds to conquer. May you continue to have the courage, the zeal, the energy to conquer these worlds of your future as you have had to overcome all obstacles in your past.

We have faith in that the training that you have received in our schools will enable you to carry on despite all of the obstacles which will confront you in the future.

The Board of Education congratulates all of you on your accomplishment.

THE BOARD OF EDUCATION,
RALPH JENTZ, President.

School Policies

To all of the boys of N. C. H. who are serving in the armed forces of the United States, we salute you. We know you will perform your duties with dispatch.

To all other pupils in our schools, we know that you too, will perform all duties imposed on you, as civilians behind the lines. Let us all do a good job here, so that our boys on the actual front will have the home support they need so much in these days.

Young men, young women, prepare your lessons well, study diligently in order that you can take your place among the busy citizens of this country for the duration, and for the Post-War period to follow.

Seniors of 1942, I congratulate you on your present achievement, but I also remind you this is but a beginning, and if you ever attain any part of a complete education, you must continue to study, for when you cease to be a student, education ceases, and as the poet says:

"A little learning is a dangerous thing, drink deep or not at all at the Pirean Spring."

ROY E. CORRILL,
Superintendent of Schools.

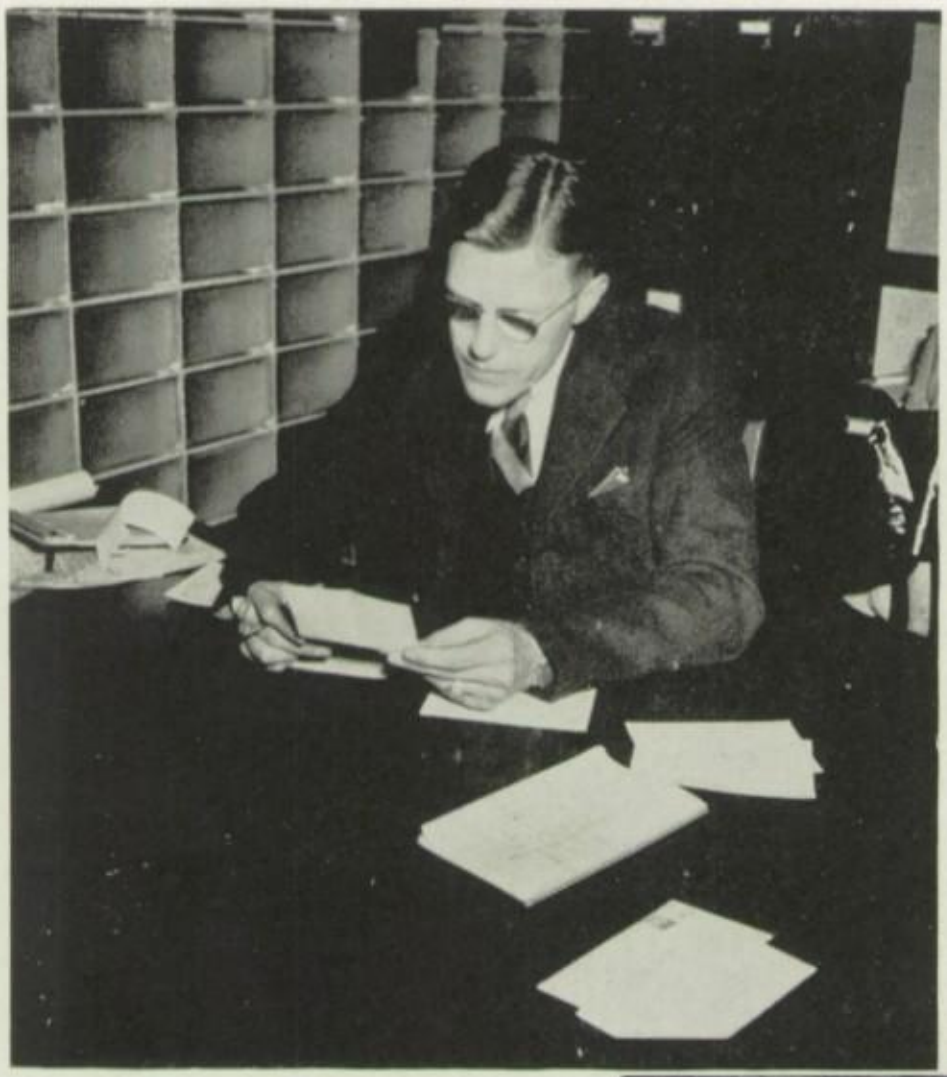
CONTENT AT WORK

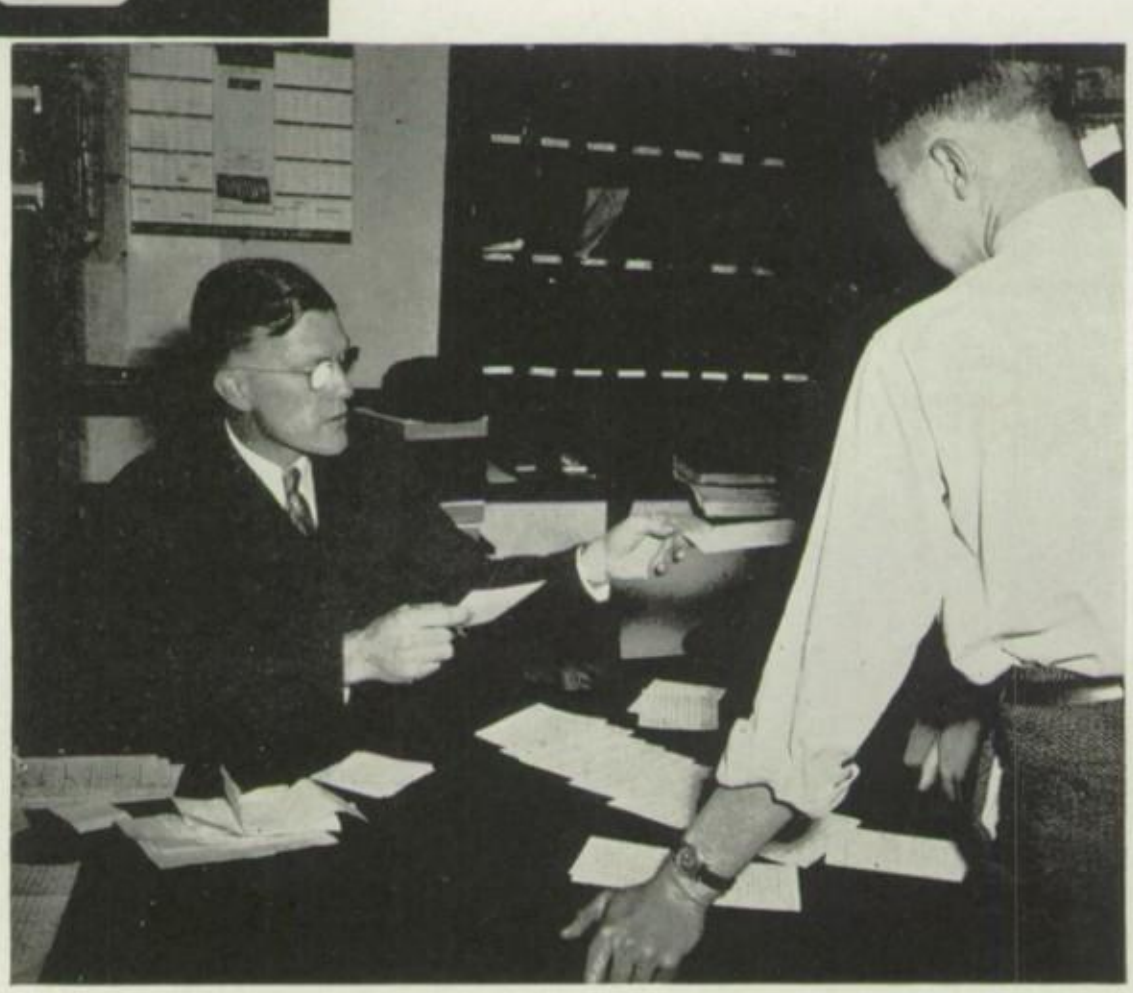
The Wise



MR. THESKEN
HARD AT WORK!

The most important acquisition a student can make while in school is the incentive to do a job the best way he knows how. If he engages in every undertaking with the firm resolve to make it a success he will awaken someday to the realization that he, himself, has been successful. Do not be satisfied with "Good Enough" but try, try for the best! With this resolve to drive him forward he will be able to face discouragement, peril and defeat with determination to overcome them. Grind yourselves with good habits to fight the battle you will enter.

EARL V. THESKEN



WHAT! LATE AGAIN?

Give Advice

Miss Cobb has the responsibility of counseling the high school girls, in addition to her many other duties. She advises them on subjects from science to etiquette, and the students can always rely on her good judgment.

There are many activities taking place that she must supervise, such as Senior Dances, Motion Picture Shows, Stunt Night, and Minstrel. The proceeds of these activities go towards printing the year book. Under her guiding hand, this march of events has been very successful.

MISS COBB
GRANTING AN EXCUSE

"A WORD TO THE WISE"

They Do

TABITHA P. COBB

Lights! . . . . Camera! . . . . Action!

We now take you to the home room of one of our most agreeable and busy teachers. First, we pass the Biology Lab where part of her time is spent. Through the day, she has classes here, but after school we find her happily supervising the Annual Staff in their daily work of making the 1942 Annual. Our next stop is the General Science Room where she teaches science, to many Freshmen students.

Our friend Miss Cobb enjoys out of door activities, bicycling, hiking, and playing badminton.

DOROTHY L. DUIS

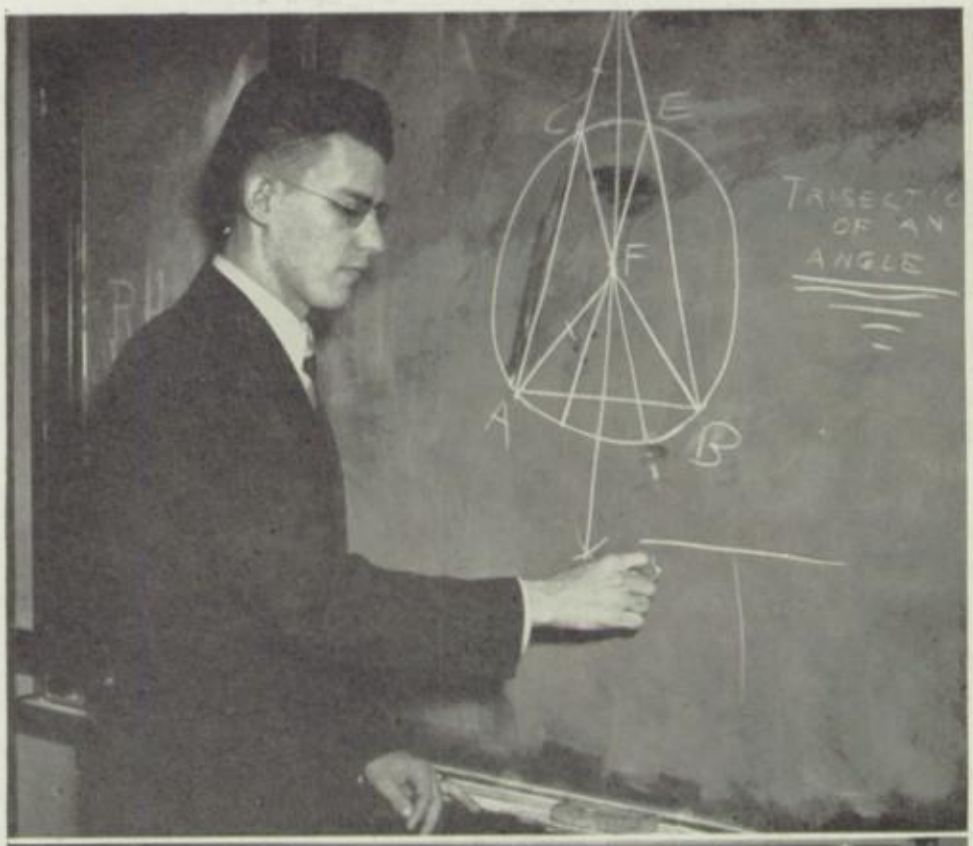
If you're around Room 101, take a glance through the door and you will see our teacher of Spanish and Business Education busily helping her students making out records, or checking attendance for her home room. You will also notice she uses red ink. Some fad isn't it? But let's not stand out here; her door is always open, step in. Why what's this? Are you collecting receipts for your hobby? By the way, this teacher is known to everyone as Miss Dorothy Duis.

MAX L. FINK

When sewing machines need repairs, when door locks stop working, when tables must be refinished, there's a rush to the basement to find the Practical Arts Instructor. Mr. Fink is kept quite busy supervising his classes in Practical Arts, training young carpenters, amateur mechanics, and metal workers.

When not engaged in his teaching activities, Mr. Fink entertains himself with photography, skiing, sailing, and archery. His main interest seems to be sailing on the Ohio in the boat he made himself.

The Teaching



ROBERT C. HOWE

Down from Miami last fall, came Mr. Howe to teach Algebra, Geometry, and General Mathematics. He is teaching the would-be-mathematicians of N. C. H. the difference between parallelograms and triangles and proves that X + Y = Z. The Stamp Club began and progressed under his supervision.

During the summer he is enrolled at the University of Cincinnati doing graduate work.

For enjoyment Mr. Howe makes model airplanes, collects stamps, and entertains us at our dances with his ability to dance.

ROBERT J. REUSS

Careful now! It's like a game of peek-a boo. He's indoors and out of doors. Now he's going into the Science Room to supervise the Senior boys during home room period. There goes the bell, and he's off to another day of hard work. Tired? We have followed him morning and afternoon, from Physics to Commercial Law, from Study Hall to Physical Education classes, and now when school is over he's still ready to go. It is baseball today, basketball last December, and football last November. To-night he will spend some time in his garden.

HAZEL A. ROSS

The object you see is the "Trojan Chatter." The paper lies open on a desk. Behind this scene, we see Miss Ross, who has supervised the staff responsible for announcing school activities. She is busy at her task teaching English III and IV and Latin I and II.

On her desk is a play for the seniors. So being interested in her classes, she places the play to the side, and, when these are over, she plunges wholeheartedly into training the Senior dramatists who present "Lease on Liberty."

They Sharpen

ETHEL A. SANDERS

Miss Sanders, our commercially minded teacher, is always on the job helping and guiding her pupils. Her subjects include Shorthand I and II, Bookkeeping I, Typing I, and Business English. She's always busy, but when confronted by some of our practical jokers, she can take it as well as anyone else.

She enjoys shopping and attending the movies. Miss Sanders is a good cook and has been skillfully maintaining an apartment with Miss Tucker. In the summer she spends her vacation on her farm near Chillicothe.

EARL V. THESKEN

Mr. Thesken, the principal of the High School is known to the students as "E. V." and "Uncle Earl." His daily routine consists of a dash to school in a Ford, "with four good tires," (so he says), office hours for absentees, Accounting and Salesmanship classes and keeping books for the various school organizations. "Uncle Earl" is busy all day long, but no matter how much he has to do, he always finds time to check the "Noisy Study Hall." One is likely to see "E. V." anytime or anywhere when he is least expected.

LUCILLE M. TUCKER

Did you say busy? How many of you know that you have to make an appointment with Miss Tucker even to call her? The school day that you think so long is filled for her with teaching classes in Home Economics and Freshman English.

Her teaching does not end at three, for she tutors Catherine Baker, a N. C. H. student, and has an adult educational class in Homemaking. She is advisor for Speech Club and Se-Co Club.

At least once a week she turns from teacher to pupil when she attends graduate classses at U. C.

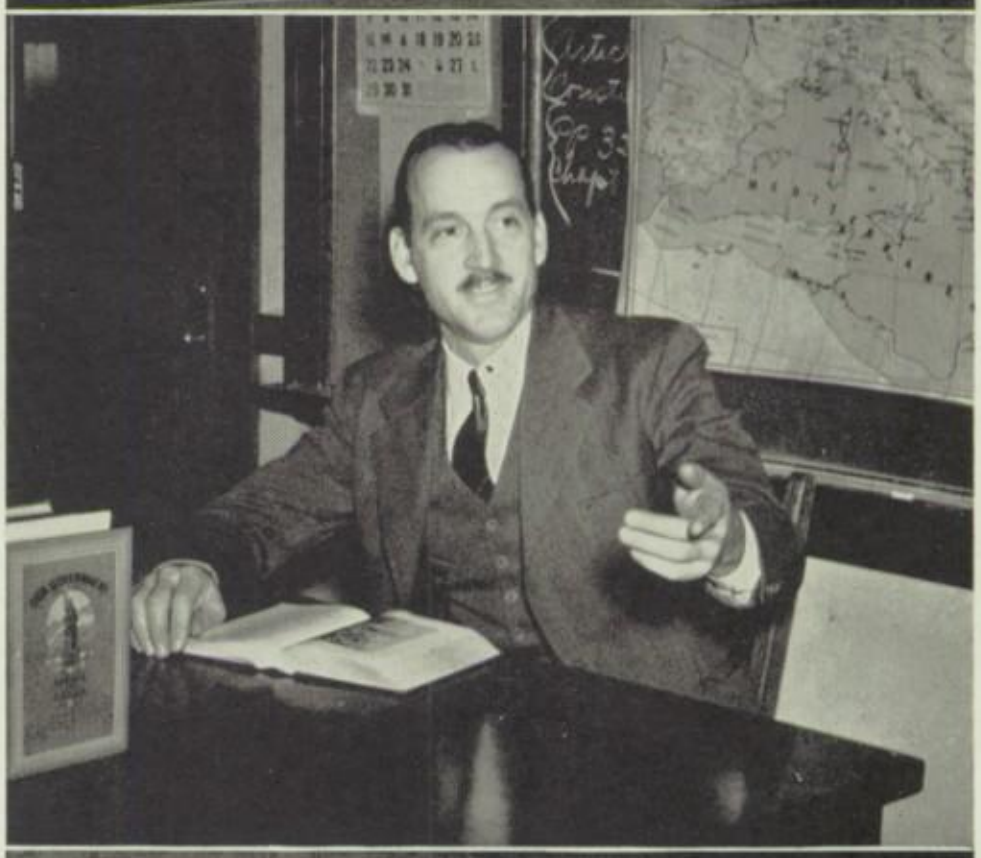
The Wits

RUBY L. WENDEL

The Instructor of Girls' Physical Education and World History is Miss Wendel. For extra-curricular activities, she supervises an intramural tournament in girls' basketball and baseball, and on Monday evenings she can be found attending the Girl Reserve Meetings of which she is the helpful advisor.

When she isn't teaching, she sews for her own enjoyment, and goes hiking and bicycling.

In the past summers she has been a student at Miami University and this summer hopes to receive her Master of Arts degree in History.



RICHARD L. ZIMMERMANN

One of the busiest teachers of this institution is "Coach Zimmermann." To the Junior Class he teaches Government and Economics, and to the Seniors, American History.

His schoolday doesn't end at three o'clock, for he assists Mr. Reuss in coaching the reserve basketball team, and teaches young athletes to put the shot, to glide over hurdles, to pass the baton, and to sprint in to victory on the track.

On unfilled days "Zim" enjoys building, fishing, and swimming.

HELEN L. REDFIELD

A newcomer to our faculty is Miss Redfield. She may be seen by everyone at our basketball and football games directing the band and has added color by appearing in a smart white military uniform.

In the music room there is always activitity. If it isn't Glee Club or music classes she is busily conducting a band rehearsal.

In the morning you find her at her desk engaged in teaching English to the Sophomore class.

Her delightful diversion is horseback riding and she is a frequent visitor at the High School Dance.

THE TROJAN

INSPECTS

CLASSES OF

INQUISITIVE

STUDENTS

THE COCKS OF THE WALK

The Seniors advance from grammatical errors to Chaucer to Shakespeare, to Senior play.

IMBIBING DEEPLY

The main project of the Junior English Class is to promote the school paper.

THE SOPHISTERS

THE TENDERFEET

Sophomores and Freshmen learn to speak and write good English and to understand and appreciate classical and modern literature. This year's major project has been to improve each students' ability to spell.

A number of students in these classes have joined a literary guild and each month purchase interesting books of fiction and non-fiction.

NOVICE DRESSMAKERS

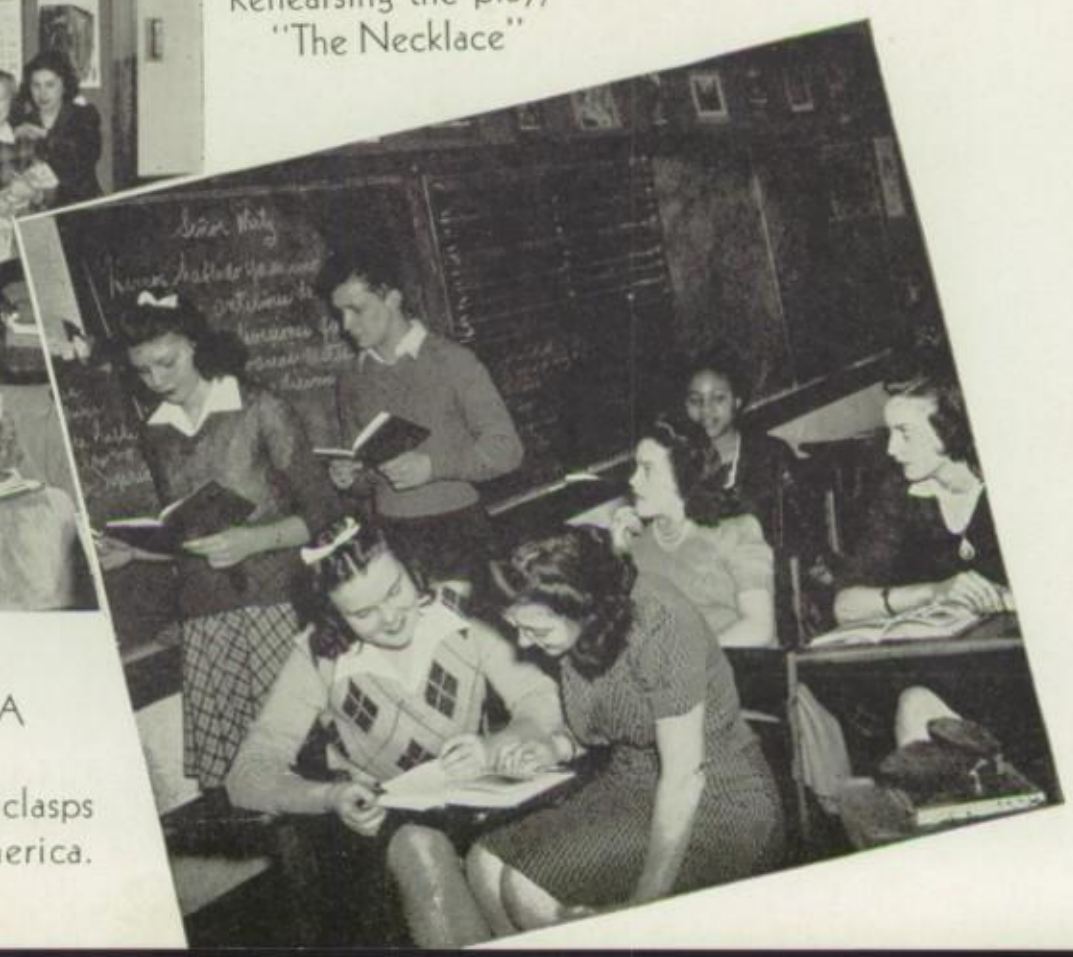
The Home Economics Class not only sews but learns to cook, to buy economically, to arrange the home artistically.

TURNING OUT THE REAL THING

The patient and skillful students work in Practical Arts.

LATIN II

Rehearsing the play, "The Necklace"



SENOR-SENORITA

English America clasps hands with Spanish America.

ASSEMBLING FACTS FOR HISTORY WORKBOOKS

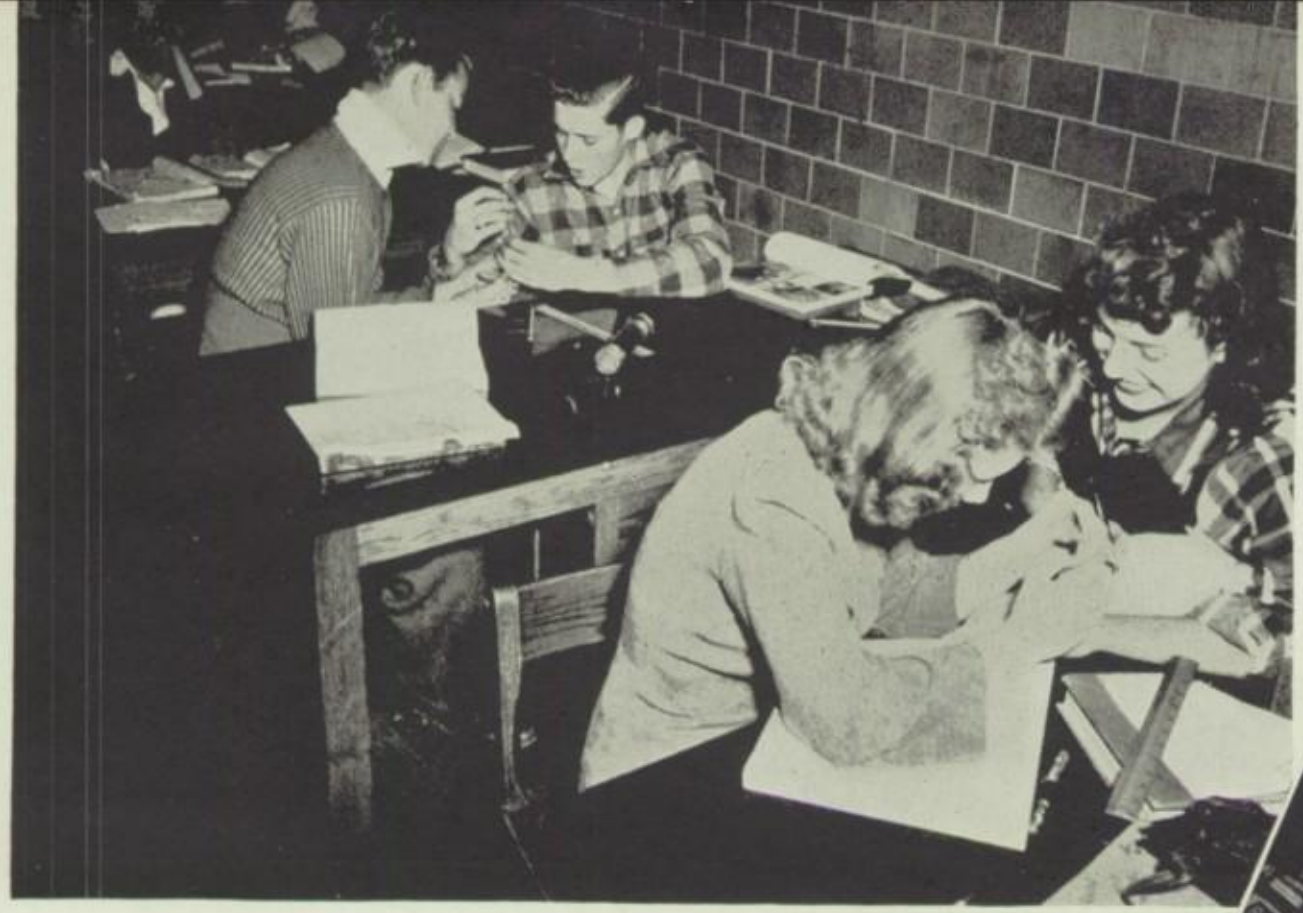
The Senior Class acquaints themselves with their American heritage.

MAPPING THE NEWS OF YESTERDAY

Where Does This River Go?

LOBBYING ON THE SIDE

The facts about voting are being learned in the Government Class.

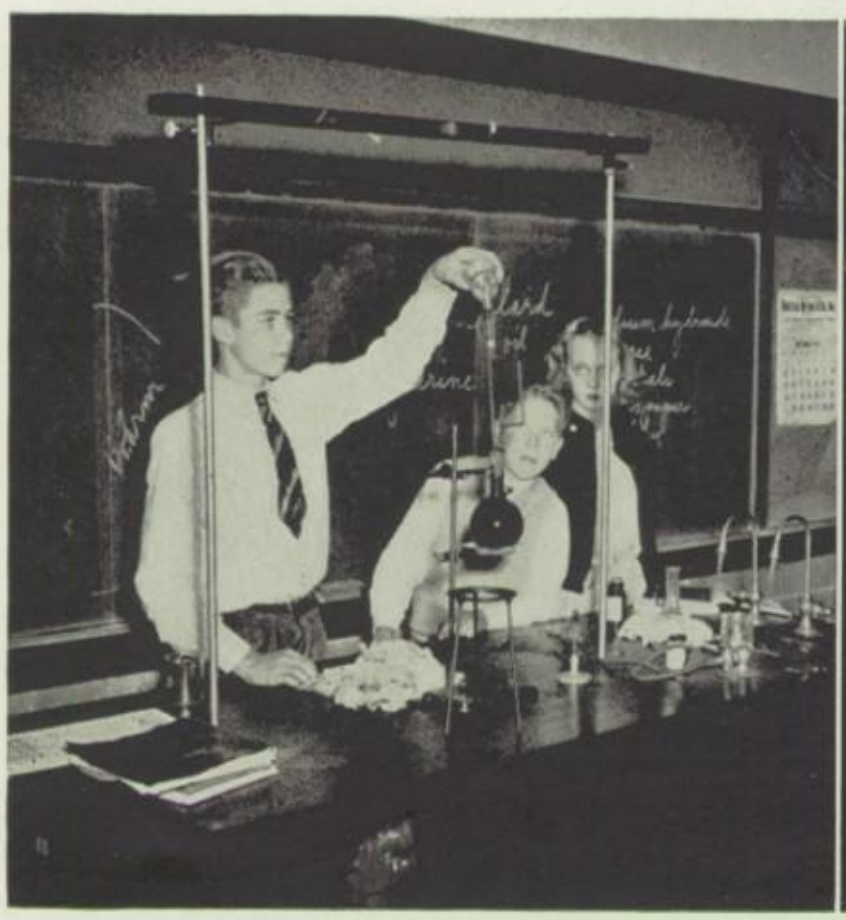


STUDENTS COOPERATE IN BIOLOGY

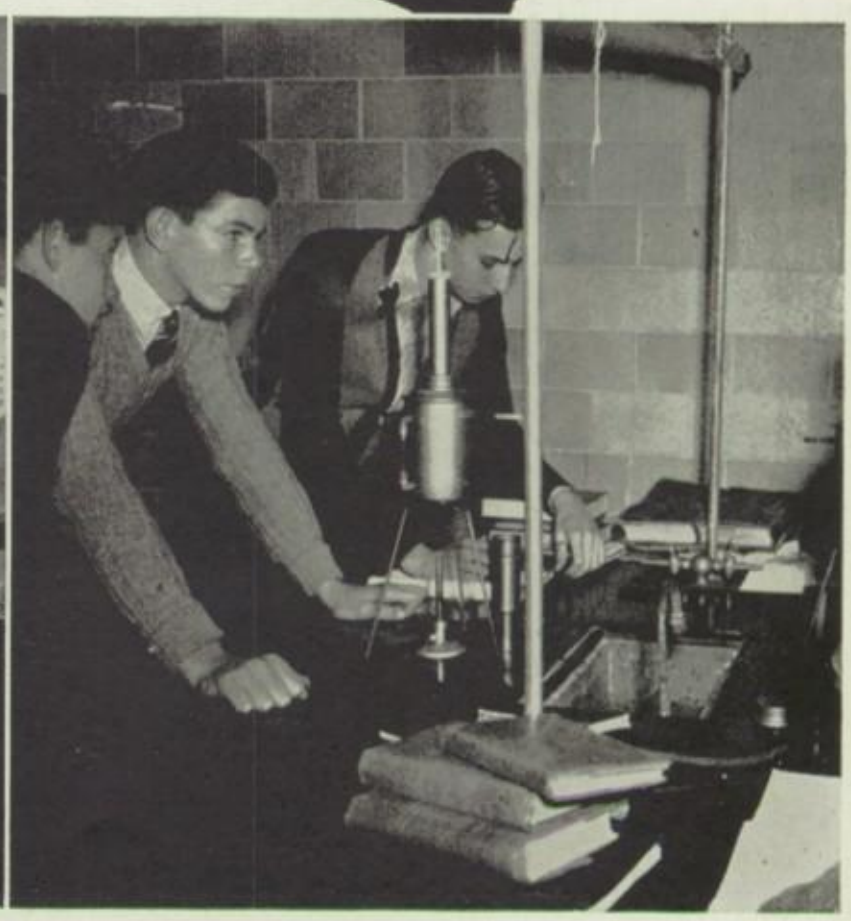
The Biology students use themselves as guinea pigs to find the most sensitive parts.

HOW DOES THE EARTH WORM REACT TO LIGHT?

In experiments, humans aren't the only ones who suffer but also animals.



PUZZLED FRESHMEN IN GENERAL SCIENCE



IS PHYSICS TOO HARD, BOYS?

FROM "HUNT AND PECK" TO STENOGRAPHERS

The students are striving for the goal of forty or more words per minute.

INKLING IN BUSINESS ENGLISH

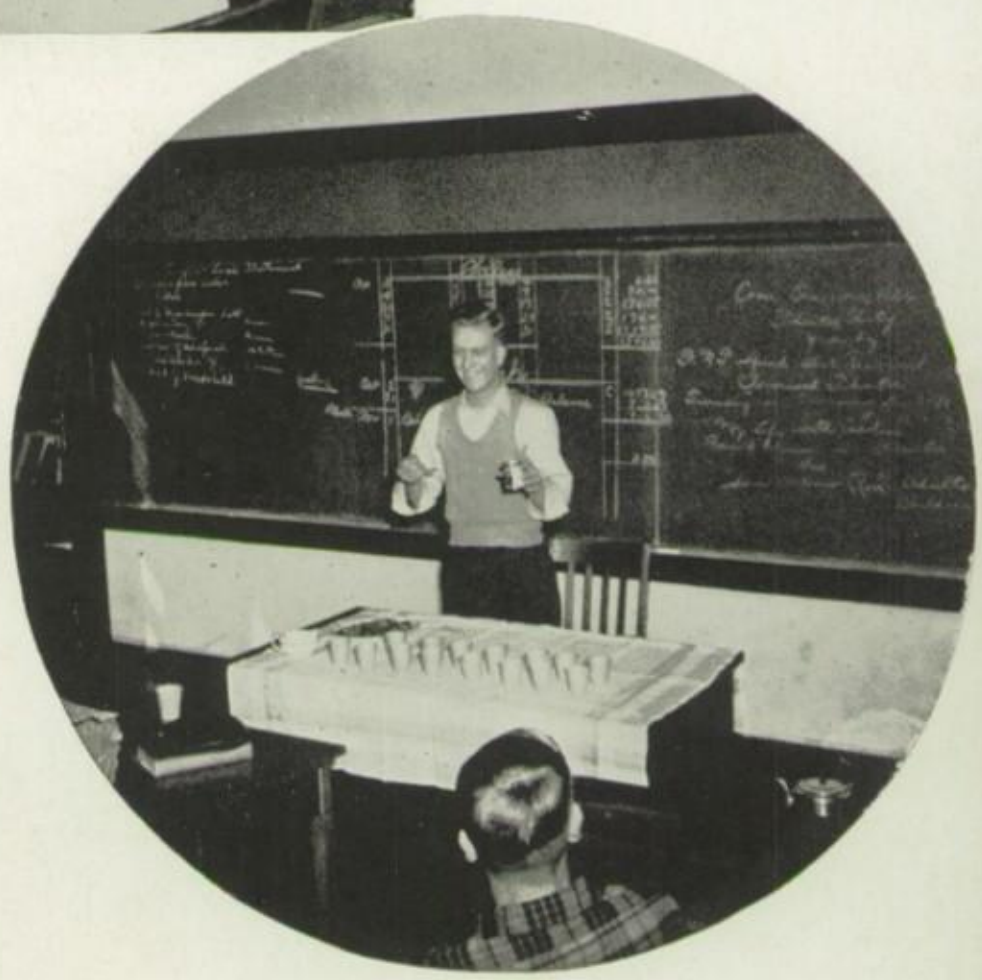
Knowledge of precise and exact letters is essential to the successful business student.

PROSPECTIVE SECRETARIES

With a dash of the pen these proselytes write in cipher. They struggle to obtain their rate of eighty words a minute to be able to read their own shorthand, and to rewrite their letters.

Young salesmen demonstrate that they have learned the principle of salesmanship by selling to the class such products as coffee, cake, steak, electric sweepers, cameras, and windex.

Effective means of advertising were studied, and the climaxing project was the creation of a forceful advertisement.



CAN SCHOOL BE LIKE THIS?

ASSETS = LIABILITIES + PROPRIETORSHIP

Problems in accounting keep these bookkeepers busy.

CASES, CASES, CASES!

These "lawyers-on-the-make" hear evidence, render decisions, and hope to gain a practical knowledge of law.

MATHEMATICIANS IN THE MAKING!

Practice in multiplication, subtraction, addition, and division stimulates the mental abilities of those interested in mathematics.

SCANNING THE WEALTH OF THE WORLD!

These undergraduates familiarize themselves with the natural resources that have been discovered in the seven continents of the world.

In Memoriam

REQUEST

I for whom every day is strangely filled
With some sweet happiness. Gather me flowers
And pile them high for me to come to see—
They will remind my spirit of the hours
Of joy I spent on earth. Think of me free
Of body's pain, and you will find your grief
Changed to an overwhelming sweet relief.

VARSITY FOOTBALL

The Trojans played a tough schedule supported with only five members of last year's team. They began by playing Walnut Hills; the boys, lacking sufficient training were on the short end of the score. With this loss and with the student body behind them, the Trojans traveled to Oxford to play McGuffey. This team hadn't lost a game in three years, and so the Trojans meant to do the best they could, to show McGuffey they wouldn't have an easy victory. The team showed good form. Harper started things by making an eighty yard run. Kresser followed to make the second touchdown, but Harper, not to be out done, came back and galloped over the line for another six points, Kresser then kicked the extra point.

The team was on the beam when it met Erlanger. The weather was rainy and the field sloppy, making it difficult for the boys to keep their feet on the ground. Thus they lost the game. (Continued on page 69).

BASKETBALL

The Trojans opened their current basketball season with a hard fought victory over Purcell's Cavaliers 23–22. The Trojans led the Cavaliers throughout the contest. After this victory they traveled to Colerain where they won 27–20. Next they met Roger Bacon on their home floor. This proved to be a very close and thrilling game, which ended in a defeat for Bacon 25–23. Then they matched wits with the Alumni and emerged the victors with a final score of 30–28. The first loss of the season came from over Wyoming way. The Cowboys downed the Trojans 20–36. This was a heart breaker. The teams recuperated from this loss very rapidly and went over to Hartwell, where they then experienced a loss at Hanover 23–32. This being only the second loss, they resolved to do better next time. With this idea "to get going," the team met Reading and defeated them 31–26. With confidence and an abundance of pep they met Sharonville and downed them 47–25. But then to their sorrow they tangled with Oxford-McGuffey and came out on the short end of the score 35–44. With the student body shoving them on, the Trojans beat Lockland, 29–28. This was a very close game. But N. C. H. won ! ! ! Then came the payoff ! ! The Trojans lost the next six games: Withrow 35–3, Wyoming 19–25, Hartwell 39–46, Reading 32–42, Walnut Hills 23–30 and Monroe 26–27. But "Lady Luck" decided to shine again, and they met and defeated Lockland 27–23. In the Tournament the Trojans played two games; winning the first from Western Hills with the score of 25–21 and losing the second to Walnut Hills 28–26.

RESERVES

The Reserves this year were really on the up and up. The first game was played with Purcell, a see-saw game with each team making successive baskets. Green, Peiper, and Davis scored the points 15–14 in favor of the Reserves. The Reserves met Colerain and beat the socks off them with a score of 34–17. With Roger Bacon the team had a rough and tumble game winning the the small margin of 26–22. "Peeps" was the high point man, with Davis taggin'. With 3 wins and no losses the Reserves met Wyoming and left their lines in a turmoil, beating them 29–20. They visited Hartwell where the Reserves emerged the victors by the score of 24–15. With hopes high and zestful cheers they encountered Hanover, but surprisingly the Reserves were beaten by the score of 22–21. The next opponent was Reading whom they humbled with a score of 23–20. In the encounter with Sharonville, N. C. H. whizzed by without a second look and won 30–8. From this easy victory the team played McGuffey in a tooth and nail fight, and came out the victors by the score 17–16. Then came the downfall. They matched Lockland and were defeated, 17–9. Still hopeful the boys met Withrow to experience another defeat, 36–23. With two losses, they were determined not to let Wyoming make it a third, so they left the Cowboys a 19–15 score. A clicking team left Hartwell a crashing regret and their delight Reading won 22–16. After this Walnut Hills engaged the Trojans in a thrilling court duel, defeated them, 15–14. The game with Monroe, ended the Reserves season with a 24–13 defeat.

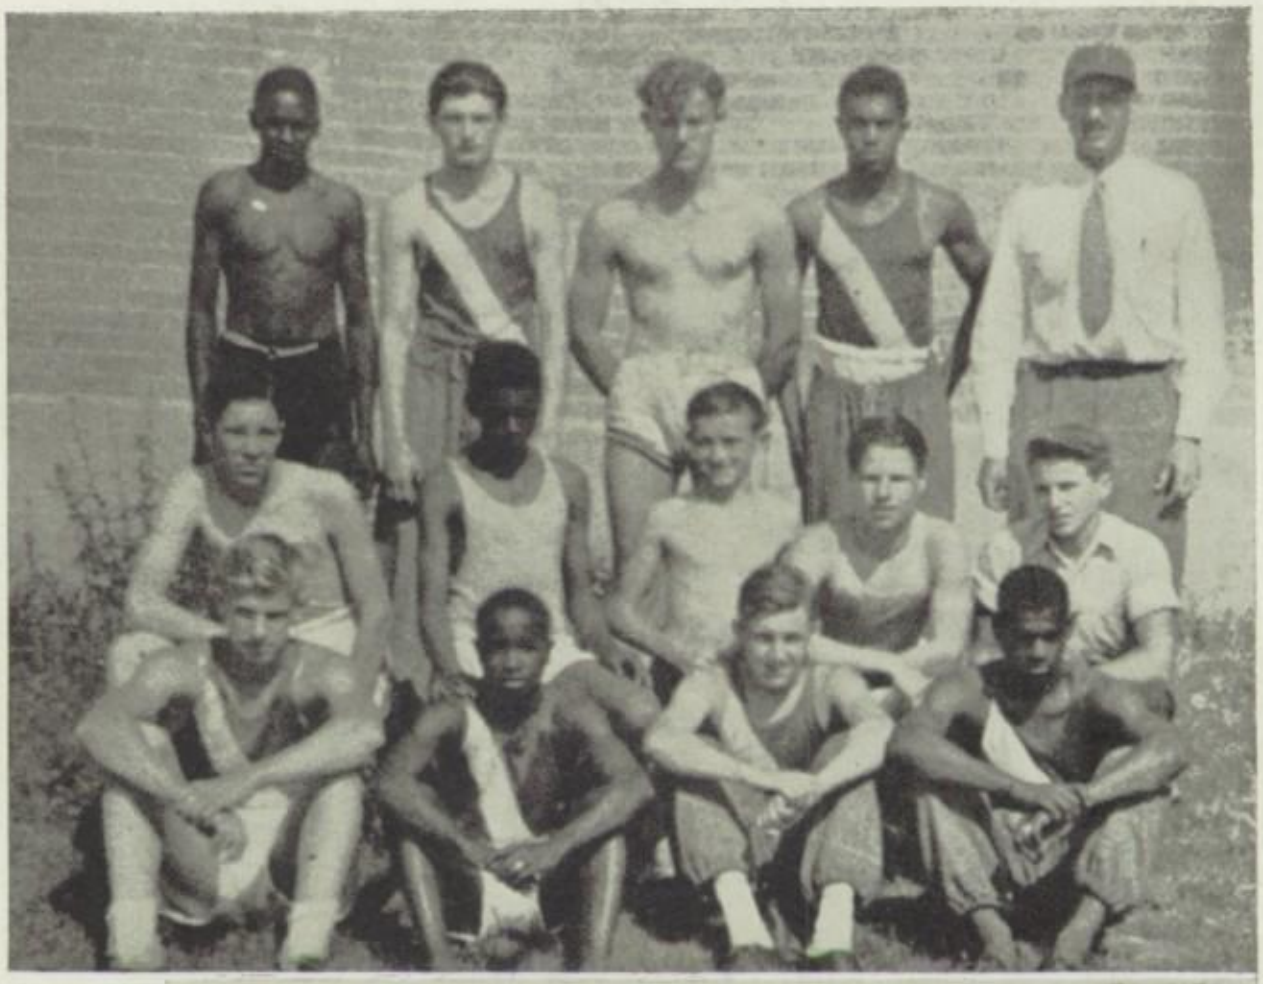
D. Oser, C. Murrell,
W. Bufler, P. Glasmeier,
R. Rankin.
Row 3:
W. Jackson, R. Hiller,
B. Petit, C. Hayes,
Coach Zimmermann.



Unusual events, outstanding stars characterize the 1941 track season. In the Triangular Meet, North College Hill, competing with Mason and Greenhills, received second place. Charles Hayes, the track hero, took first place in the 100 yard dash, 220, high and broad jump in the Lockland relays.

Competing with boys from Southwestern Ohio, Indiana and Northern Kentucky, at the Miami Meet, W. Jackson placed third and fourth respectively in the quarter mile and half mile. Hayes placed third in the hundred yard dash and the broad jump and fourth, in the high jump.

The Southwestern District Meet at Western Hills gave N. C. H. a second place cup. Hayes again placed first in four events. Boys placing in this meet went to Columbus to compete with the "fast men" in Ohio. Hayes and Jackson placed in the 220 and mile races.

GOLFERS

The North College Hill High School foursome, Jim Rudolph, George Hammann, Jack Hayden, Louis Evers, have spent a busy season matching teams from Roger-Bacon, Lockland, Hartwell, Reading and Wyoming. So successful were these golfers that they emerged the champions of the Millcreek Valley Interscholastic League.

The number of competing schools is limited, as many schools do not have golf teams. Unfortunately for N. C. H. the golf team is composed of Senior boys which means the formation of a new team each spring. For this reason all members are not included in the picture.

GEORGE HAMMANN and JAMES RUDOLPH

Getting in Trim

PING,
THEN PONG!

WRONG PLAY. NO SCORE!

PUT IT OVER!

LEARNING
TECHNIQUES

UNDER
THE ARCH!

The activities for the Girls' Physical Education classes are diversified to meet the needs of girls with varied interests and varied physicial abilities. During the fall season when the boys are interested in football, the girls learn to play kick ball, soccer and hockey.

After Thanksgiving when the weather chases everyone indoors, the girls spend their class periods marching in drill formations, dancing, running relays, playing group games such as captain ball, volley ball, basketball, deck tennis, and individual sports like ping pong and badminton.

One of the students' main interests is basketball. In class the girls learn and practice the techniques and rules of the game. Those particularly interested, organize class teams and play an intramural tournament after school. Sylvia Tiefermann and Lois Oser were chosen captains of the two Freshmen teams.

The Sophomores also organized two teams, having Joan Kornau and Shirley Schulze as their leaders. Druscilla Dick kept the Juniors in tow, and Dolly Kern led the Seniors to the championship. These champions are Ginny Schehl, Freda O'Shea, Anna Marie Bucher, Marian Elsasser, Anna Sand, Ruth Betty Weiss.

The spring season is devoted largely to softball, at which time teams are organized for the class tournament.

Whooping It Up

Yells, Yells, Yells and more Yells!
That is how the '41, '42 season opened.

"Yea, team, fight, fight, fight,"
"With a T, with a T, with a T-R-O—
With a J, with a J, with a J-A-N—
T-R-O——J-A-N——TROJAN fight!"

"Yea, team, see that score, Yea,
team, we want more!"

"V-I-C-T-O-R-Y——Victory!"

Thus all athletic teams were lead on to do their best by the cheerers.

Rain or shine, hot or cold, the four cheerleaders Janice, Shirley, Betty Jean, and Donald have been cheering at both football and basketball games for the past three years.

As this is their Senior year in school, an elimination contest was held among the Freshmen and Sophomore classes to choose the new cheerleaders. The results are as follows: Sylvia Tiefermann, Elmer Glasmeier, Betty Lee Smith, and Jean Zurcher. Virginia Evers acts as a substitute.

The departing cheerleaders wish to express their congratulations to the cheerleaders of '42 and '43.

A MESSAGE OF
AMERICANISM

THE STUDENT
COUNCIL FUNCTIONS

Student Council, composed of ten representatives, is the organization which puts democracy to work in the school. At the beginning of the year each class chooses by popular election its respective number of representatives.

Under the guidance of Mr. Zimmermann this group plans various activities for student participation. The assembly programs, which are entertaining as well as educational, are planned at the weekly meetings. Donald Wirtz, President, presided over these meetings.

This year, as in the past, the objective of the Student Council was to better school environment.

Hi-Y

Hi-Y challenges us to be fit—physically fit to meet and face the challenges of today and tomorrow: socially fit to adapt ourselves to any circumstances or occasions without sacrifice of personal principles: mentally fit by study and training to make use of one's native ability: and spiritually fit for appreciating those values that are without price. A big order you say? Well, that is what we "Hi-Yers" think, but still we feel the need of having something higher than our grasp!

"MILE OF DIMES DANCE"

PRELUDE TO CHRISTMAS CAROLING

The Girl Reserve Club has successfully carried out its varied program. The girls plan activities for earning money, such as sponsoring dances and theatre parties, for community service the Mile of Dimes Dance for the Infantile Paralysis Fund and Christmas Caroling for those confined, and for social entertainment for themselves, hikes, Christmas and Valentine parties, and a hayride.

The Club has been active with the help of its ever-tiring cabinet: Bernice Wheeler, President; Dolores Hoefler, Vice President; Freda O'Shea, Secretary; Jane Willey, Treasurer; Virginia Evers, Song Leader; Ann Robertson, Devotion Chairman; Eunice Wheeler, Program Chairman; Betty Jane Woellert, Social Chairman; Vaneta Jump, Financial Chairman.

We take this time to express our gratitude to Miss Wendel, our Advisor, who has given us her undivided attention in our interests.

WE MUST BE VIGILANT!

Puzzled expressions, deep-knit brows, the Trojan Staff is searching for a theme. Eureka! It has come! "The Trojan Sees".

During the year, student photographers snap climaxes. Young designers draw artistic pages, while patient workers mount appropriate pictures. Others scout school activities to review affairs.

Difficult as the editing task may be, the Business Manager and her assistants have a more difficult one sponsoring picture shows, Stunt Night, and the Minstrel to raise the necessary funds.

All classes are represented on the staff. Those who carried through appreciate the help of Virginia Schehl, who joined late, and extend recognition to Gene Williams, former Editor, and June Helcher, former Business Manager, who were forced to resign because of other responsibilities. This group of workers have had Miss Cobb and Miss Wendel, as their advisors.

TODAY WE WORK

While the students of North College Hill High School anxiously await the next edition of the "Trojan Chatter," the staff, under the supervision of Miss Ross, is busily engaged in gathering data for the next issue.

The 1941–42 editions contained three new columns: Letters from Camp, Who's Who on the Faculty, and How I Can Keep Up the Citizen Morale. The paper reports school news, in fact, everything from philosophy to gossip.

Gertrude Brough has been a very capable editor and the other staff members have shown full co-operation in making the school paper very interesting.

When is the "Chatter" coming out? Has the paper gone to Press? These questions are asked by students eagerly awaiting the school paper which is read by nearly every student and through them reaches the people of North College Hill.

ON PARADE

BAND

Boom! Boom! Boom! The beat of the bass drum opens another season for the school band.

Mr. Markley, director, prepares it for its many drills. And then—he is drafted; so the band is placed under the leadership of Miss Redfield. After many hard practices the band is ready for the football season. The band and the majorettes attended the Lockland night game and helped cheer the boys to victory. After participating in various other activities it prepares for the Pow Wow and the Thanksgiving Game with Hartwell. Even though the rain makes it quite difficult to march it goes through with its drill to encourage the boys.

Shirley Hutzel, Dolores Stevens,
Our Drum Majorettes.

Football ends and so begins basketball. The band makes a fine showing at the home games.

The band presents a program for Commencement, Baccalaureate Service, and the parade on Decoration Day.

Dolores Stevens and Shirley Hutzel, the drum majorettes, help add to the fine showing of the band through the entire year. Although Dolores is graduating this year, Shirley will carry on. We are assisted by the drum majorettes from the Junior High School who are: V. Schribeis, L. Burkline, A. Jung, M. Elstun, M. King, also two Freshmen J. Bauer, and G. Liebig.

FOOTBALL

(Continued from page 48)

With a good following of students to cheer them on, the Trojans visited Reading, whom they left in the dust by the score of 12–0. Odie Harper became the hero of the gridiron by making the only two touchdowns. After this victory, every one was "hepped up" looking forward to the game with Hamilton Catholic which was played on the home field. The team's spirit was at a feverish pitch. The game was fast, furious, and interesting because they defeated the visitors. In this game Butch Hammann lost a tooth which nearly resulted in a hand to hand battle. The game with Oxford-Stewart was close and exciting. The team had an excellent defense which enabled them to hold Stewart to a tie score. With excitement riding high, our boys took the field for a night game at Lockland. There would be no dilly-dallying. Odie Harper battered the line to go over for a touchdown. Kresser then came up with the extra point. Then, much to the students' pleasure, Harper threw a pass to Corrill, who went over the line for a touchdown. The defense was able to keep the opponents from scoring. The team ran into trouble when they tangled with Wyoming and returned home downcast. The final encounter of the season was the Thanksgiving Day Game at Hartwell which ended in a defeat for N. C. H. The only Trojan touchdown came early in the first quarter when Don Mohr broke through the Warriors' forward wall, blocked a punt, and then recovered it in the end zone. The extra point was gained by a pass from Odie Harper to Will Thinnes.

Said the Electrical Mouth *to the* Electrical Ear . . .

"Joe . . took . . father's . . shoe . . bench . . out.

She . . was . . waiting . . at . . my . . lawn."

Passing through the Bell Telephone Laboratories in New York City, you might hear these strange sentences being repeated by an electrical mouth into the transmitter of a telephone.

These sentences contain all the fundamental sounds in the English language that have anything to do with the intensity of sound in speech. By listening to them, by measuring the accuracy with which each sound is carried over the wire, engineers test the quality of the transmitter.

This is only a small example of the work at Bell Laboratories. There, research is carried on constantly in the interest of the telephone user . . . experimenting, testing, figuring out ways to create new equipment or to improve present methods.

ACHIEVEMENT OF THE BOOK WORMS

(Continued from page 64)

Curious, ambitious minds are rewarded. On May 4, the outstanding scholars from Southwestern Ohio, meet at Oxford for a "bout of wits." Each school competing is entitled to a scholarship team composed of two students from each subject.

The North College Hill High School is in Division II, that is high schools with less than 399 students. The team consists of June LeMon and Helen Klein in Shorthand I, Janice Bengel and Ruth Betty Weiss in Shorthand II, William Lahmann and Arthur Kamleiter in Typing, Gertrude Squires and Betty Jane Woellert in Bookkeeping, Frank Lanier and William Weber in Biology, Geraldine Liebig and William Ochs in General Science, Edward Elberg and Donald Flick in Physics, Donald Green and Clifford Juergens in Algebra, Andrew Froehle and Leonard Bosserman in Geometry, Louise Brough and Odie Harper in American History, Eugene Meyer and Frederick Weber in World History, Sylvia Tiefermann and Richard Hoffmann in Latin I, Margaret Puccini and Jack Bernhardt in Latin II, Maryln Thomas in Spanish I, Betty Ammerman and Margaret Klosterman in English I, Joan Kornau and Anna Marie Ott in English II, Gertrude Brough and Rita Meyer in English III, Alvena Mathes and John Robinson in English IV.

Of the above thirty-five students, thirteen placed in the upper ten in their subjects in the District Contest. Competing with all students in Ohio in Division II, William Weber received eighth place and Frank Lanier honorable mention in Boilogy, William Ochs and Edward Elberg honorable mention in General Science and Physics respectively.

A special letter of Congratulations was sent to Louise Brough, a senior, who placed in the district contests for the past four years, and to Edward Elberg, a junior, who ranked high in science tests the past three years.
